

EXPERT HORSE RACING HANDICAPPING!

February 25, 2026

Good morning Turf Club Members,

OAKLAWN PARK – TWO LISTED PICK 5'S

Wow! The Trackpro Value Rating (TPV) algorithm handicapped two consecutive *back to back* PICK 5's at Oaklawn Park on Sunday! In R5 the listed **50 cent** PICK 5 (2 x 4 x 2 x 1 x 1) paid **\$1,075.00!** And in R7, the listed **50 cent** PICK 5 (2 x 1 x 1 x 4 x 1) paid a whopping **\$3,243.20** for subscribers! And after a not so hot handicapping day at Oaklawn Park on Saturday, the **TPV** algorithm came right back on Sunday afternoon to list eight of nine winners on the card including *four* winners on **TOP!** The flat win bet profit on **TOP** was a fantastic **+\$40.60!** The four top win payoffs were as follows:

(R4 - **\$8.20**, R5 - **\$9.80**, R7 - **\$28.60**, R9 - **\$12.00 - SV**). The COLD \$2.00 DAILY DOUBLE in R5 paid **\$39.80!** The two highest win payoffs on the

Oaklawn Park card were listed in the top two selections including the **Super Value Win Bet #3 TWO DOLLAR EDDIE (\$12.00 - SV)** in R9. The listed rolling \$1.00 PICK 3's paid as follows: (R3- **\$46.00**, R4 - **\$113.70**, R5 - **\$91.70**, R6 - **\$98.00**, R7 - **\$221.50**). The \$2.00 rolling DAILY DOUBLES paid: (R2 - **\$19.20**, R3 - **\$27.80**, R4 - **\$34.60**, R5 - **\$39.80**, R6 - **\$34.20**, R7 - **\$97.20**).

THE NEW TRACKPRO POWER RATING WAGERING METHOD (PRWM)

Trackpro came up with a nifty little selection method using the **POWER RATING (PR)** in the handicapped reports to select horses that could run into the money at a nice price! Here is the **TRACKPRO POWER RATING WAGERING METHOD (PRWM)** in a nutshell:

- 1) From the four listed selections in each race, find the selection that has the highest ranked **POWER RATING (PR)** with a morning line of at least **3-1** or higher.
- 2) If the selection is also on the tote board at **3-1** or higher at post time, then bet **\$4.00** to win, **\$2.00** to place, and **\$6.00** to show on the horse. The total cost of the “across the board” wager is **\$12.00**.

Long time **Turf Club** member Steve told me about how he uses the “across the board” wager to make profits at the race track, except Steve puts **\$2.00** to win, **\$2.00** to place, and **\$8.00** to show on the horses he likes. Steve uses a different method of selecting his key horse, which is not based on the **POWER RATING**

(PR), and he prefers to put more money on the show position. Racing fans can configure the **WPS** wager any way they want, and you do not have to wager on every race either. But by using the **Trackpro POWER RATING (PR)** selection method, subscribers will always be wagering “across the board” on strong horses that have minimum odds of at least **3-1** on both the morning line and tote board at post time! *This minimum odds requirement rule helps ensure subscribers are getting wagering value for their hard earned money.* And believe it or not, some tidy profits can result at the end of the day if things go well, but of course there are no guarantees whatsoever. So let me show the **Turf Club** a few examples of the **TRACKPRO POWER RATING WAGERING METHOD (PRWM)** in action:

In R7 at Oaklawn Park on Sunday, the horse with the best **POWER RATING (PR)** was the #5 COLOR COMIN' IN (1). This horse also had a morning line set at **3-1**, but the odds on the tote board at post time were only **8/5**, so we move to the next best **POWER RATING (PR)** selection in the above report which was the #4 TIZ IN

SIGHT (4). However this horse did not have a morning line set at **3-1** or higher, so we move to the next best **POWER RATING (PR)** which was the top selection #2 FRONT RUNNIN (6) with the morning line set at **9/2**. The tote board odds were sitting at a massive **13-1** at post time! The minimum odds requirement of **3-1** or higher on both the morning line and on the tote board were met.

Therefore we bet **\$4.00** to win, **\$2.00** to place, and **\$6.00** to show on the #2 FRONT RUNNIN for a total of \$12.00. That's it! As it turned out, the #2 FRONT RUNNIN finished second in the race, but was placed first by the stewards having to take up in deep stretch. The win payoff was **\$28.60**, the place payoff was **\$12.20**, and the show payoff was **\$6.20!**

In R9 yesterday at Will Rogers Downs, the horse with the best **POWER RATING (PR)** was the #1 STOMPING HOTROD (1) listed third in the handicapped report shown above. This selection did meet the minimum morning line odds of 3-1, but was bet down to only 8/5 at post time. We need to also have minimum odds of 3-1 on the tote board at post time, so we move to the next best **POWER RATING (PR)** horse which was the #9 SIDETOWN (3). However, this horse was scratched. So we move to the next best **POWER RATING (PR)** selection in the report

which was the #8 MANNY'S KAT (8) with the morning line set at a hefty 12-1, and the tote board odds were 24-1 at post time! Therefore we bet \$4.00 to win, \$2.00 to place, and \$6.00 to show on the #8 MANNY'S KAT for a total of \$12.00. The horse ran third paying a rock solid \$10.20 to show! The six dollar show wager returned \$30.60! The net profit was +\$18.60 on the race. A perfect example of combining the Trackpro POWER RATING (PR) with minimum odds of 3-1 on both the morning line and tote board!

In the selections for R4 at Louisiana Downs on Monday shown above, the top POWER RATING (PR) selection was the #2 MO JETTA (1) with a morning line set at 7/2, but the public really liked this horse, and bet the odds down to even money at post time. The next best POWER RATING (PR) selection was the top selection #5 FIRE MCQUEEN (3), however this horse had a morning line set at only 5/2 which is below our minimum 3-1 odds requirement. So we move to the next best POWER RATING (PR) selection which was the #4 FIRST PATRIOTIC ROSE (4) with a morning line set at 6-1 and the tote board odds at an incredible 16-1 at post time! So we place \$4.00 to win, \$2.00 to place, and \$6.00 to show on the horse. As it turned out, the horse won and paid \$34.00 to win, \$8.00 to place, and \$3.40 to show. The four dollar win bet returned \$68.00. The two dollar place bet returned \$8.00, and the six dollar show bet returned \$10.20!

The net profit on this race was **+\$74.20!**

In the selections for R2 at Mahoning Valley on Monday, the top selection #3 MAGIC MOUNTAIN (1) earned the top **POWER RATING (PR)** but the morning line set at 2-1 did not meet our minimum 3-1 odds requirement. So we move to the next best **POWER RATING (PR)** horse which was the #4 LEROYISALAGNIAPPE (2) with a morning line set at 15-1, and the odds at post time were an unbelievable 24-1! So we bet **\$4.00** to win, **\$2.00** to place, and **\$6.00** to show on the horse. This horse also qualified as a Trackpro **DOUBLE OVERLAY!** As it turned out, the horse won and paid a whopping **\$50.80** to win, **\$12.60** to place, and **\$6.80** to show. The four dollar win bet returned **\$101.60**. The two dollar place bet returned **\$12.60**, and the six dollar show bet returned **\$20.40!** The net profit on this race was **+\$122.60!**

Remember, there is no guarantee whatsoever that a profit will be made using the **TRACKPRO POWER RATING WAGERING METHOD (PRWM)**, but it definitely is a way of getting solid wagering value for your hard earned money as the above examples clearly demonstrate.
