

EXPERT HORSE RACING HANDICAPPING!

January 10, 2026

Good morning Turf Club Members,

SANTA ANITA – TPV HANDICAPS LISTED 50 CENT PICK 5 - \$6,877.10!

Does anyone in the **Turf Club** know who the trainer shown in the photo to the left is? If you guessed trainer Doug O'Neil, you are absolutely correct! The photo is from the Detroit Free Press back in 2016 when he won the Kentucky Derby with NYQUIST. This trainer had a fantastic day yesterday at Santa Anita winning four races on the entire ten race card! And if any racing fan bet all three of his entries in the early PICK 3 (1 x 4 x 4), they would have cashed a one dollar ticket that paid a massive **\$305.50!** Thankfully, the powerful **Trackpro Value Rating (TPV)** algorithm listed this payoff in the Santa Anita report yesterday

for subscriber's. And not only that, the **TPV** also listed the early **50 cent** PICK 4 (1 x 4 x 4 x 2) in R5 that paid a rock solid **\$1,993.40**, and the listed early **50 cent** PICK 5 (1 x 4 x 4 x 2 x 2) that paid a wallet-busting **\$6,877.10!**

Trackpro gets paid to put overlooked horses that have a legitimate chance to win in the reports, and the **TPV** handicapping at Santa Anita yesterday did just that! In fact, the **TPV** listed a total of thirty-six winners from forty-six handicapped races (78.26%) yesterday! Now that is consistent handicapping is it not? It sure is!

The **Trackpro Value Rating (TPV)** algorithm is unique! Make no mistake about that. And it is not based on so called “handicapping angles” either. The algorithm simply parses the past performances in a comprehensive manner, and keeps track of everything it “sees”, regardless of whether or not the factor is positive or negative. Every horse has some chance to win the race, no matter what it looks like on paper, and that is the “key” to comprehensive handicapping in my view. Take for example, the past performances shown below for the #3 ROUSTA (**\$51.60**) listed fourth in the selections for R3 at Santa Anita yesterday. This three year old colt sired by ACCELERATE had a morning line set at **8-1**, but left the gate at massive odds of **24-1**, which of course sent the horizontal payoffs through the roof! In the selections for R3 shown above, notice this colt was marked with three **Trackpro Handicapping Tools** which are listed below:

- 2) High J/T Win Percentage **(J)**
- 3) Notable gate workouts **(/)**

Trainer Doug O'Neil did an outstanding job prepping this colt for the win yesterday at **24-1** odds having made a number of important changes after the seventh place finish last race at Del Mar on November 22nd, 2025. Notice the addition of Lasix (**L**), the stretch out in distance from six and a half furlongs last race to eight furlongs, and the two stamina building workouts from the 'gate' at five furlongs over the Santa Anita track. Also notice in the past performances shown above the early speed last race, and the chart comment which states "Vied between;weakened". Most racing fans get "scared" to bet horses floating up in odds like a helium balloon, thinking the horse is not "well meant" sort of speak. But nothing could have been further from the truth! Given the excellent workouts since the last race, the top Jockey/Trainer combination, and the addition of first time lasix, what was not to like at huge **24-1** odds considering this colt owned and bred by Calumet Farm was making only the second start of his career?

There were two low priced heavily bet horses in this five horse field, and both of them were bet below **9/5** odds as can be seen in the Trackpro **Morning Line Overlay (MLO) Calculator** to the left. Notice the two horses that were overlays to the morning line (#1 and #3) completed the two dollar exacta box that paid **\$102.80!** Trackpro subscriber's know full well by now that horses on the

tote board below **9/5** odds lose often for one reason or another, and this exacta could have been snagged by just applying the **Trackpro 9/5 Wagering Rule** at post time to the listed selections! The **TPV** algorithm listed almost eighty percent of the winners yesterday at Aqueduct, Gulfstream, Santa Anita, Tampa Bay Downs, and Turfway Park, so at the end of the day, the **TPV** does an outstanding job of finding overlooked horses that sometimes bring home the big balloons! Take for example the consecutive payoffs on the rolling \$2.00 Daily Doubles yesterday at Santa Anita: (R2 - **\$37.40**, R3 - **\$81.20**, R4 - **\$190.00**, R5 - **\$42.80**, R6 - **\$30.00**). Wow!
